### **EnerSys<sup>®</sup>, Manufacturer of ODYSSEY<sup>®</sup> Batteries, Returns as Official Sponsor of Don Schumacher Racing**

**READING, Pa., (July 19, 2016)** – EnerSys<sup>®</sup> (NYSE:ENS), the global leader in stored energy solutions for industrial applications and the manufacturer of ODYSSEY<sup>®</sup> batteries, is continuing as an associate sponsor of the 2016 Don Schumacher Racing (DSR) team.

As an associate sponsor, EnerSys has equipped the majority of DSR vehicles with ODYSSEY<sup>®</sup> batteries since 2010. ODYSSEY<sup>®</sup> batteries are designed with an Absorbed Glass Mat (AGM) construction and Thin Plate Pure Lead (TPPL) technology for more engine-cranking power and reserve power than conventional batteries.

ODYSSEY<sup>®</sup> batteries feature a three- to 10-year service life and two-year storage life at 77 degrees Fahrenheit (25 degrees Celsius). They are vibration resistant, classified as “non-spillable” by the U.S. Department of Transportation and include a limited two- to four-year full replacement warranty.

The ODYSSEY<sup>®</sup> battery logo will appear on the sponsored DSR vehicles, as well as DSR transporters, technology trailers and many of the DSR driver uniforms.

“The confidence that an organization as renowned as the Don Schumacher Racing team has in ODYSSEY<sup>®</sup> batteries is a testament to the battery’s quality and performance,” said Maria Orlando-Krick, marketing content and sponsorship manager at EnerSys. “We are honored to continue our sponsorship of DSR.”

“Over the years our team has appreciated that these fuel motors need a reliable battery to start,” Schumacher said. “ODYSSEY<sup>®</sup> batteries have never let us down and we know that they will help us deliver winning performances in 2016.”

## **ABOUT ENERSYS<sup>®</sup>**

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Motive power batteries and chargers are utilized in electric forklift trucks and other commercial electric powered vehicles. Reserve power batteries are used in the telecommunication and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions including medical, aerospace and defense systems. Outdoor equipment enclosure products are utilized in the telecommunication, cable, utility, transportation industries and by government and defense customers. The company also provides aftermarket and customer support services to its customers from over 100 countries through its sales and manufacturing locations around the world.
