EnerSys® Appointed to Approved Vendor Status for the National PRONTO Association

READING, Pennsylvania, July 31, 2018 – EnerSys® (NYSE:ENS), the global leader in stored energy solutions for industrial applications and manufacturer of ODYSSEY® batteries, recently was appointed Approved Vendor status for the National PRONTO Association. As an Approved Vendor, EnerSys now will be able to offer premium Absorbed Glass Mat (AGM) ODYSSEY® batteries to PRONTO warehouse distributor members.

Manufactured with proprietary Thin Plate Pure Lead (TPPL) technology, the pure lead plates used in the construction of ODYSSEY® batteries are made thinner, allowing for more to fit in the battery. The increased number of plates results in more surface area, increased power and massive deep cycling capability. The rugged construction and non-spillable dry cell design of ODYSSEY® batteries protects against high impact shock and mechanical vibration, helping to provide longer service life.

“ODYSSEY® batteries provide the ultimate in battery performance and technology for a wide variety of applications,” said Tom Rafferty, National Account Manager at EnerSys. “We continue to see an increased demand for premium AGM battery solutions by our automotive distribution partners and the ODYSSEY battery is an ideal solution.”

ABOUT ENERSYS®

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Motive power batteries and chargers are utilized in electric forklift trucks and other commercial electric-powered vehicles. Reserve power batteries are used in the telecommunication and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions including medical, aerospace and defense systems. Outdoor equipment enclosure products are utilized in the telecommunication, cable, utility, transportation industries and by government and defense customers. The company also provides aftermarket and customer support services to its customers from over 100 countries through its sales and manufacturing locations around the world.

ABOUT NATIONAL PRONTO ASSOCIATION

The National PRONTO Association is made up of nearly 100 Member Distributors with over 300 distribution locations. They serve thousands of auto parts stores and service centers every single day. PRONTO is committed to the independent automotive aftermarket and demonstrates leadership within the industry by providing PRONTO Member distributors and their customers a professionally managed, member-directed organizational structure.
