EnerSys® Signs Supply Agreement with Navistar®

READING, Pennsylvania, July 16, 2018 – EnerSys® (NYSE:ENS), the global leader in stored energy solutions for industrial applications and manufacturer of ODYSSEY® batteries, recently signed a four-year supply agreement with Navistar®. The agreement covers the supply of ODYSSEY® batteries for Original Equipment (OE) on International® branded trucks, and all makes aftermarket replacement batteries sold by International® Truck dealers under the Fleetrite® Platinum Plus brand. International® Truck currently has over 700 dealers in the United States and Canada.

“This agreement formalizes a strategic partnership between EnerSys and Navistar to supply premium AGM batteries for both the OE production as well as their dealer aftermarket program,” said Jeff Long, President, Americas at EnerSys. “We are increasingly seeing that fleets value the benefits of ODYSSEY® premium AGM batteries for their reliability and longevity.”

Manufactured with proprietary Thin Plate Pure Lead (TPPL) technology, the pure lead plates used in the construction of ODYSSEY® batteries are made thinner, allowing for more to fit in the battery. The increased number of plates results in more surface area, increased power and massive deep cycling capability. The rugged construction and non-spillable dry cell design of ODYSSEY® batteries protects against high impact shock and mechanical vibration, which are common causes of battery failure.

ABOUT ENERSYS®

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide. Motive power batteries and chargers are utilized in electric forklift trucks and other commercial electric-powered vehicles. Reserve power batteries are used in the telecommunication and utility industries, uninterruptible power supplies, and numerous applications requiring stored energy solutions including medical, aerospace and defense systems. Outdoor equipment enclosure products are utilized in the telecommunication, cable, utility, transportation industries and by government and defense customers. The company also provides aftermarket and customer support services to its customers from over 100 countries through its sales and manufacturing locations around the world.

ABOUT NAVISTAR

Navistar International Corporation (NYSE: NAV) is a holding company whose subsidiaries and affiliates produce International® brand commercial and military trucks, proprietary diesel engines, and IC Bus brand school and commercial buses. An affiliate also provides truck and diesel engine service parts. Another affiliate offers financing services. Additional information is available at www.Navistar.com.
